Experienced Full Stack Developer with 7 years in Android (Java), iOS (Swift), React Native (JavaScript), and backend (JavaScript, Express.js, PostgresQL). Skilled in building and maintaining applications across multiple platforms. Experienced with Git/GitHub for version control and automation, and Docker, AWS (S3, EC2), and Nginx for deployment.

EXPERIENCE

CodeExperts — *Team Lead*

Sept 2022 - PRESENT

Since 2022, I have been a team lead, managing projects with Android, iOS, React Native, Express.js, and PostgreSQL. I oversee the development process, coordinate efforts, and ensure projects meet objectives. I guide the team in creating strong, innovative solutions and support a collaborative work environment. My role includes mentoring and helping team members grow. I strive for excellence and lead the team to deliver great results for clients.

Freelance — *Full Stack Developer*

Oct 2017 - Aug 2022

From 2017 to 2022, I worked as a freelance developer, focusing on Android, iOS, React Native, Express.js, and PostgreSQL. I built easy-to-use mobile apps for clients, using my skills in Android and iOS. With React Native, I created both native and cross-platform apps. In backend development, I used Express.js to build efficient and secure server-side applications. My knowledge of PostgreSQL ensure reliable data management. I also used AWS S3 for media storage and deployed applications on EC2 using Nginx.

EDUCATION

UET Taxila, Taxila — *Software Engineering*

Sept 2014 - July 2018

I completed my bachelor in software with 3.21 GPA

PROJECTS	Stack

Anticipatory Care Tool — *Ongoing (Team lead and backend developer)*

<div align="right">

Nextjs
ExpressJS
PostgresQL

</div>

https://anticipatory.care/

The Anticipatory Care Tool is for all! Anyone who is caring for, or in regular contact with a person living with dementia can use ACT, which is an app that can be used on any connected device – PC, mobile or tablet. It   is intended as an observational tool to help identify changes in wellbeing and does not offer any diagnosis. Although health professionals might find this helpful, it is a non-clinical tool that does not require any specialist knowledge. As a digital tool it can be used both online, such as during a video call or in person.

ONMINE — *Ongoing (Team lead and backend developer)*

<div align="right">

Nextjs
Django
Python
PostgresQL

</div>

https://onmine.io/

Experience a streamlined onboarding process that gets up and hashing in no time. With ONMINE you can join the Bitcoin mining community independently and confidently, free from centralized control. Take control of your Bitcoin mining journey and enjoy the freedom to mine with enterprise tools and expert support.

COGS Therapy — *Completed (Mobile and backend developer)*

<div align="right">
